

Premium Tuffstuff mops will
outlast cut-end mops 8:1.

tuffstuff™ wet mop

looped-end with tailband

For 35 years, Tuffstuff has been the number one tried and trusted premium wet mop in Canada. Tuffstuff's synthetic-cotton blend yarn is a workhorse that outlasts conventional mops by 8 times and stands up well to laundering. The synthetic component of the yarn adds durability and the cotton boosts absorbency to reduce drying time on the floor.

The headband is made of polyester mesh designed to quickly dry the yarn underneath while providing strength when attaching an EZ-change (narrow band) or Jaws (wide band) handle. The tailband helps keep the mop's fan shape, providing better floor coverage and eliminating tangles. The looped-ends prevent the yarn from fraying and unravelling during the laundry cycles. Made by Canadians, for Canadians.

narrow band

wide band

features and benefits

- Synthetic-cotton blend yarn combines durability and absorbency.
- Faster drying floors due to cotton component.
- Product has colour options for facilities implementing colour-coding strategies.
- Great for hospitals, nursing homes, and long term care facilities.
